Third year
Computer Science
and Business Major

So What Is InternConnect?

Your all in one platform to
connect you with your next
internship or career experience

The Process

01

Sign Up

Enter basic info including
school major

02

Quiz

Take a quick quiz to let us
learn a little more about you

03

Check Out Your Matches

We use our advanced AI
to match you to the
perfect internships

04

Connect

Interact with previous
interns and learn more
about the next steps

WHY US?

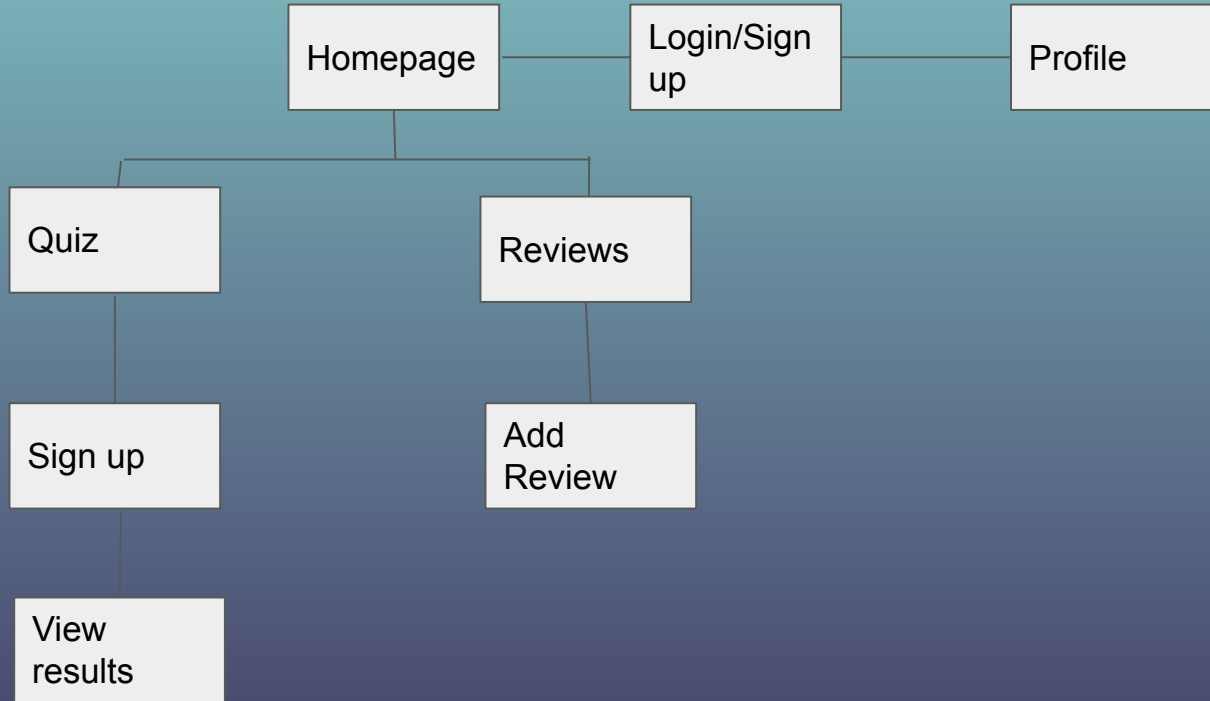

THEM

Send a generic resume to every job listing - who cares about your unique background

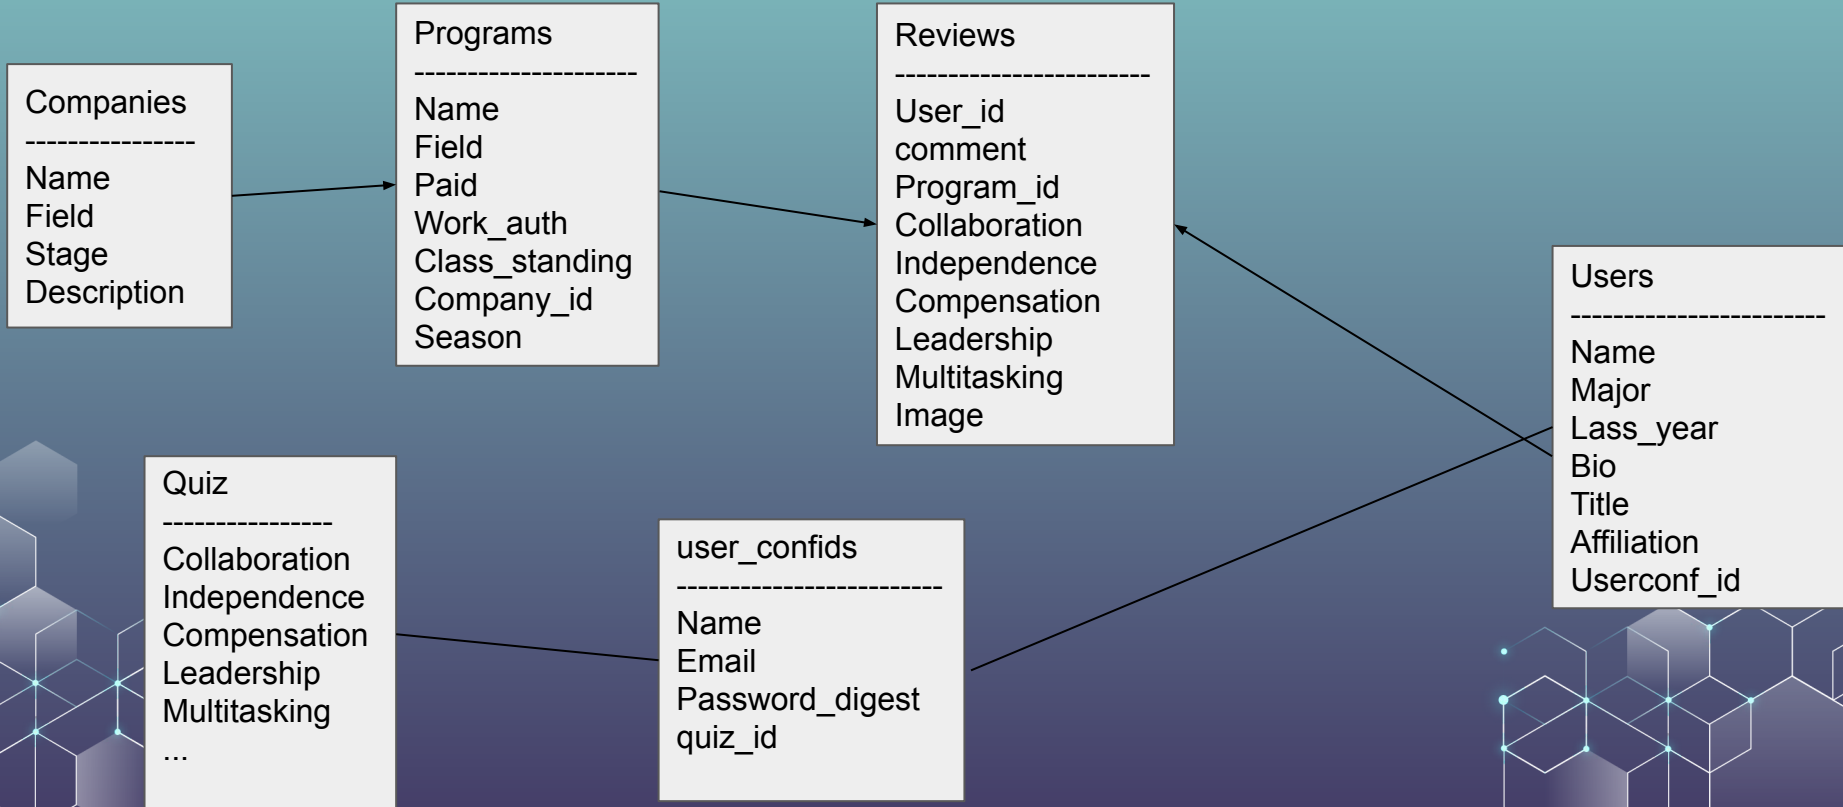

US

Takes the time to keep your individuality in mind to show internships/experiences you truly match with

ARCHITECTURE

Database Tables and Associations

The background features a teal-to-blue gradient. In the top-left and bottom-left corners, there are clusters of white-outlined hexagons of various sizes, some with small teal dots at their vertices. In the top-right and bottom-right corners, there are similar clusters of hexagons, but they are semi-transparent and appear to be floating or fading into the background.

Biggest Challenge?

FUN TECH & GEMS & APIS

- Mapbox
 - Mailboxer Gem
 - Kaminari
 - ActiveStorage
